Fountainhead...

WILLOW RANCH, CALIFORNIA

**Not Just a Pin-Point on the Map, But
A Harvest of Fresh, Clean Lumber!**

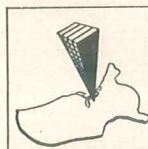

... a harvest that's quality-controlled right
from the forest ... processed in modern
mills ... shipped to strategic points in the
Midwest ... to give you better service,
faster!

OUR MODERN EQUIPMENT AND LARGE LUMBER STOCKS MEAN FINER SERVICE FOR YOU!

250 million Feet of Standing Timber!

Largest Suppliers of Timbers in the Mid-
west!

175 thousand Board Feet Manufactured
and Dried Every Day!

Custom and Production Millwork!

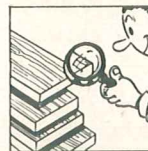

Dry Kiln Capacity of 500 thousand Board
Feet!

Finest Soft-Textured Pines!

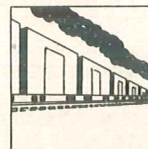

Big Cranes, Big Equipment!

Selected Hardwood Stocks!

Tops in Technical Talent!

Carloads of Plywoods!

We are proud of our capabilities and performance. In lumber, more perhaps than elsewhere, is such confidence a vital thing. The foundation of this confidence lies wholly in serving you with the best. We represent reliability in the lumber industry. Buyers know that, and look to us for better lumber, delivered faster!

INDUSTRIAL FABRICATION

HIGH GRADE INDUSTRIAL WOOD FABRICATION OF ALL KINDS!

Shop Benches, Platforms, Pallets, Rollers and any Shop Item involving the use of Lumber can be made.

SHOP BENCHES

Benches Delivered Completely Assembled

- FOR SHOPS
- FOR GARAGES
- FOR FACTORIES
- FOR SCHOOLS
- FOR HOMES

2'4" deep and 5' long, 34 $\frac{5}{8}$ " high (with Maple top), with four steel legs and one steel drawer. \$48.00

These benches are suitable for various types of bench work in factory, school and home work shops, such as packing, light and heavy machine work, die making, assembly lines, and for layout and cutting. This variation creates a possibility for different sizes and specifications. Call on us to quote on your specific requirements.

Legs are formed of T-section steel members, double riveted and electric welded at each intersection and finished in durable green baked enamel.

Tops are constructed of 1 $\frac{5}{8}$ " thick plank, bolted to steel legs with 5/16" carriage bolts countersunk flush with face of plank. The plank top is faced with 3/4" Maple Flooring. Back and end stops furnished, optional. Foot rest or full shelf can be furnished. For light assembly or packing, 1/4" tempered Presdwood can be used in place of Maple facing. Metal drawers 14" wide, 5" high and 24" deep can be furnished.

HARD MAPLE ROLLERS For Moving Machinery

Made of SSE Hard Maple — oiled after turning.
 3 $\frac{1}{2}$ " diam. up to 4', per lin. ft. \$.75
 5 $\frac{1}{4}$ " diam. up to 6', per lin. ft. 1.00

PALLETS AND PLATFORMS

Can be made in any size or design, to meet the requirements of your lift trucks.

CREOSOTED PRODUCTS

TIES—BLOCK FLOORING—TIMBER PRESERVATIVE

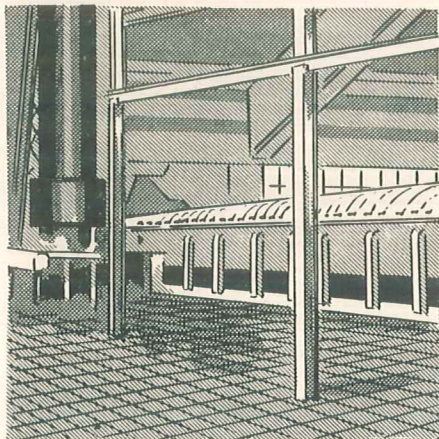

TIES

Track ties for repairing industrial railroad sidings. Oak and mixed hardwoods, hewn and sawn. Pressure treated 6 lbs. creosote per cubic foot. Switch ties and cross ties can be included in the same car.

Full carloads of approximately 350 ties shipped direct from treating plant subject to special quotation.

6 x 8—8' 6" (6" face and wider).....	\$3.58 each
7 x 8—8' 6" (7" face and wider).....	3.78 each
7 x 9—8' 6" (7" face and wider) mixed sizes.....	3.78 each
7 x 9 Switch Ties (length as specified 8 to 16').....	\$145 per MBM

CREOSOTED BLOCK FLOORING

Wood Block Flooring for factory floors over concrete. Blocks are Yellow Pine, creosoted 6 lbs. per cubic foot. Available in thickness or depths as shown below, rectangular, grooved or Counter-sunk lug type.

Prices below are for truck load lots of 20,000 lbs. Full car prices on application.

2" depth (width and length specified), 75 lb. sq. yd.	\$3.45 sq. yd.
2½" depth (width and length specified), 90 lb. sq. yd.	4.12 sq. yd.
3" depth (width and length specified), 105 lb. sq. yd.	4.80 sq. yd.

CREOSOTING

Our Company has facilities available for creosoting lumber. We can treat, in open tank process, all sizes of lumber up to 12 x 12—20'. Floor Sleepers and furring subject to moisture or decay will endure longer when treated with creosote. We use Tennessee Eastman Company's No. DK for open tank creosoting, because it is non-toxic, and does not burn tissue in handling. Lumber in open tank — \$45.00 per MBM (three day service).

We can also pressure treat lumber in truck or car lots to any required retention. Carloads can be stopped off for treating in transit.

Prices for pressure treatment quoted on receipt of schedule of material to be treated and retention required.

SPECIAL NOTES • All prices in this catalog are current prices at time of publication, but are subject to change without notice. • Many items we carry are not listed in this book, please call us if you do not find what you require.

TIMBER CONNECTORS

TECO TIMBER CONNECTORS

TECO Timber Connectors are used to increase the strength of ordinary nailed or bolted connections between wood framing members. Their use often permits use of smaller sizes of lumber, and aids in rapid assembly where many pieces of the same design are used. Teco Connectors are used in framing trussed rafters in multiple housing units, in heavy mill type buildings, and in flat and bowstring type roof trusses.

Developed by the Timber Engineering Co., a subsidiary of the National Lumber Manufacturers Association, Teco Connectors have proven their value to the building industry in many kinds of construction involving the use of lumber and timber.

We have typical designs of roof trusses, highway bridges, racks, and towers available for use by architects and engineers, and manuals showing application and assembly of Teco-framed members.

PRICE LIST

Prices shown are factory list prices per 100 pieces, shipping point. Quantity discounts subject to total number of connectors ordered quoted on receipt of schedule.

FLOOR PRODUCTS

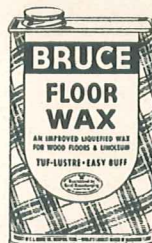

BRUCE FLOOR FINISH*

One Quart \$1.35
Covers 250 square feet

A penetrating seal that protects and beautifies wood floors. Bruce Floor Finish brings out the full beauty of the wood and overcomes the disadvantages of brittle or surface commonly used on wood floors. Seals pores against dirt and stain — resists scratching and marring. Spots subjected to unusual wear can be re-finished without showing laps.

BRUCE TUF-LUSTRE WAX*

One Quart 98c

An unusually durable liquid wax, developed specifically for hardwood floors. Contains a skillful blend of waxes that give longer-lasting beauty and protection. Bruce Tuf-Lustre can be used for all types of flooring except rubber and asphalt tile. For these exceptions we recommend Bruce Self-Polishing Floor Wax.

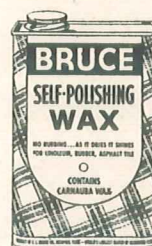

BRUCE FLOOR CLEANER*

One Quart 68c

The new scrubless way to dry clean wood floors and linoleum. Ends soap-and-water scrubbing. Cleans floors easier, better, safer. Contains no water, soap, abrasives or other ingredients that might harm wood, linoleum or other finishes. Bruce Floor Cleaner contains a wax base that brightens and protects between regular waxings.

BRUCE SELF POLISHING WAX*

One Quart 98c

A floor polish that dries to a bright lustre without rubbing or buffing. Exceptional for linoleums, rubber and asphalt tile. Easy to apply, quick to shine — excellent coverage — dries rapidly. Bruce Self Polishing Wax is the answer to the modern home's need for a fast applying wax.

The New BRUCE "DOOZIT"

ENDS "ON-YOUR-KNEES"
FLOOR SCRUBBING

\$1.89

The new wonderful back-saving Bruce Doozit. You can clean, wax and polish standing up. The magic pad does the work. Just pour some Bruce Floor Cleaner on the wood or linoleum and then a few effortless strokes of the Doozit to give you a cleaner, more beautiful floor — quicker.

Extra pads just 19c each.

OTHER BRUCE PRODUCTS

PASTE WAX

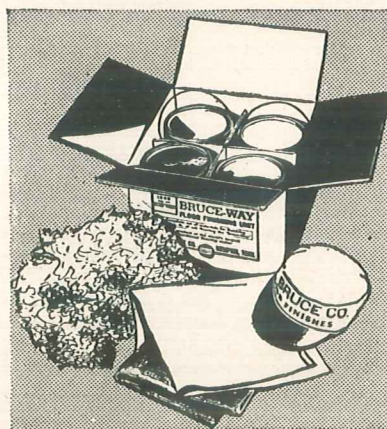

One Pound 59c
Highest quality hard wax for floors, furniture, woodwork, automobiles, etc.

PASTE WOOD FILLER

2 1/2 Pound Can 35c Lb.
Fills pores in surface of porous woods. Does not cloud or obscure grain of wood. Pound of filler (with equal amount solvent) covers about 100 sq. ft.

GYMNASIUM FLOOR FINISH

Gallon \$5.25
Bakelite base finish. Resists action of rubber burns, acids and perspiration. Gallon covers 500 sq. ft. on first coat.

BRUCE FLOOR FINISH UNIT

Complete Package \$3.60 \$12.15

Contains everything you need for a professional floor finishing job. Each unit contains Finish, Filler, Solvent, Wax, Cotton Waste, and Burlap. Even a painter's cap is included. The units are in two sizes; to cover 250 square feet, or 1000 square feet of area. Three shades to choose from; Clear, Medium and Dark. Handy, easy-to-use package of famous Bruce Products.

BRUCE BLOCK FLOORING

Oak — Beech — Pecan

	25/32" x 9" x 9"	Prefinished	Unfinished
Sel. and Btr.....		\$0.60	\$.55
No. 1 Com. and Btr.....		.55	.50

1 bdl. of 25/32" x 9" x 9" contains 16 pcs. — 9 sq. ft.
Prices are per square foot surface measure.
Block flooring has the minimum amount of waste per job.

Specify whether Blocks are to be nailed or laid in mastic.

PLANK FLOORING

MAPLE — Beech — Birch

1 x 4 to 8" No. 1 Com. and Btr. Plank Flooring	
V Joint.....	\$235.00

HOW TO ARRIVE AT THE AMOUNT OF FLOORING REQUIRED

To cover a certain space, figure the number of square feet, which means the width multiplied by the length; for instance, a room 12 feet wide by 15 feet long would contain twelve times fifteen or 180 square feet. Add to the square feet of surface to be covered the following percentages:

	Face
50% for	3 1/2" x 1 1/2"
37 1/2% for	3 1/2" x 2"
33 1/3% for	3 1/2" x 2 1/4"
33 1/3% for	3 1/2" x 1 1/2"
25% for	3 1/2" x 2"
33 1/3% for	1/2" x 1 1/2"
25% for	1/2" x 2"
25% for	3 1/2" x 3 1/4"
20% for	3 1/2" x 5 1/8"

The above figures are based on laying flooring straight across the room. Where there are bay windows or other projections, allowance should be made for additional flooring. It is always well to order 5% additional flooring to take care of floor layers' cutting and possible damage if carelessly handled.

In addition to above if the flooring is 1 1/8" or 1 1/4" thick add 25% more.

If flooring is 1 1/8" or 1 1/4" thick double above.

KNOTTY PINE IS PRACTICAL!

IT LOOKS SO EXPENSIVE
YET IT COSTS SO LITTLE!

18^{1/2}¢
BD. FT.

Here's Knotty Pine Paneling, rich in age-old tradition and fresh in modern application — at a price so sensible you can't afford to pass it up! It costs so little, you can cover an average 10 x 12 room with 7-foot paneling for only \$65!

Knotty Pine Has Many Applications! For a cozy fireside, a friendly recreation room, a restful bedroom . . . for dining nooks, dining rooms, dens, libraries, entrance halls . . . knotty pine is right at home. Also ideal for commercial application in hotel lobbies, sales rooms, dining rooms, bars, and for display backgrounds.

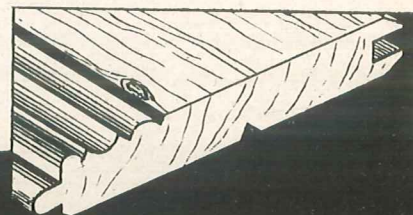

Variety of Widths and Lengths. Willow Ranch Brand Knotty Pine comes in 6", 8", 10" and 12" widths, and in 6', 7', 8', and 10' lengths. 16' lengths are available for modern, horizontal application.

Paneling Is Reversible! Combination design has beautiful Pickwick pattern on one side, and modern v-groove on the other side. For finishing installation, mouldings such as casings, base mouldings, carpet strip or shoe moulding, are also available.

Tips on Installing Knotty Pine. BEFORE installation, paint the back side of the paneling, and finish the face of the boards with stain or paint . . . Be sure to finish the tongue and groove, also . . . Fasten paneling to horizontal wood lath strips (see opposite page) for solid installation . . . If boards are nailed through tongue, angle in at 45-degrees . . . If nails go through face of boards, and are not covered by moulding, use finishing nails and cover heads with plastic wood which has been mixed with the same stain or paint used on the paneling.

COMBINATION DESIGN IS REVERSIBLE; EITHER SIDE CAN BE USED!

24 PICKWICK PATTERN ON ONE SIDE, V-GROOVE ON OTHER

For bedroom, bunk room, guest room

For living room, recreation room, dining room

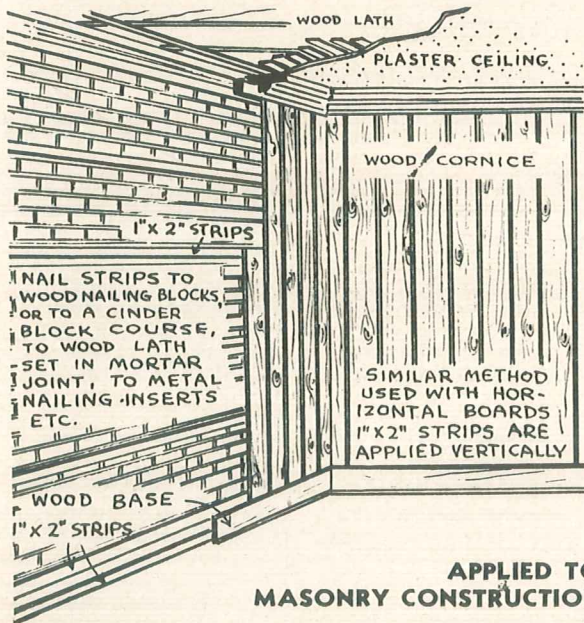

For hotel lobby, bar room, dining hall

For sales room, office, display

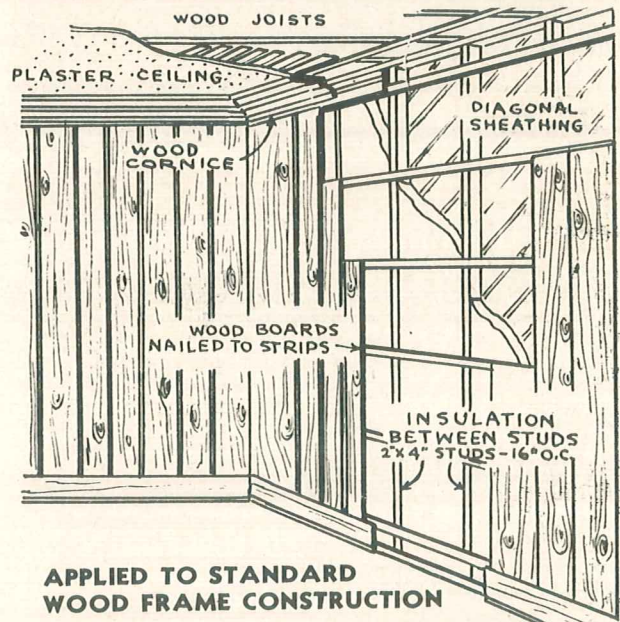

WILLOW RANCH BRAND KNOTTY PINE PANELING IS ECONOMICAL TO APPLY

**APPLIED TO
MASONRY CONSTRUCTION**

(Brick, tile, cinder block, concrete block, etc.)
PROVIDE NAILING BASE WHEN BUILDING WALL

Remove old cornice and base mouldings and replace with clear or knotty pine mouldings. It is not necessary to remove old plaster.

**APPLIED TO STANDARD
WOOD FRAME CONSTRUCTION**

Strips are not necessary when paneling is installed horizontally, since boards may be nailed to upright studs.

Butt vertical paneling to base and cornice mouldings rather than to apply these mouldings over the paneling. This will prevent formation of dust pocket where base moulding meets patterned edge of paneling.

PANELING

AROMATIC CEDAR CLOSET LINING

This soft red-and-white, small-knotted wood gives a pleasant odor to your closet or wardrobe. It helps to protect against moths. Tongue and grooved on all four edges; it is easily and quickly installed into any space with a minimum of waste.

$\frac{3}{8}$ " x $3\frac{1}{4}$ " 1½' to 8' lengths, packed 40' and 48' 22c sq. ft.

MAHOGANY PANELING

Luxurious surroundings are fulfilled by paneling with this aristocrat of woods. It comes either finely textured or swerl grained to suit your particular taste. Easily worked, lasts forever, and can be finished in a myriad different and unique ways. Mouldings and different kinds of paneling designs will gladly be run to order, for your special job.

1" x 6", 8", 10", 12"— 4' to 16' lengths 80c bd. ft.

PECKY CYPRESS

Pecky Cypress, because of its honeycombed surface, has a natural "aged" appearance and striking antique effects can be obtained with this extraordinary wood. For individuality in interior decoration no other material offers as many possibilities. Especially suited for half-timber work, paneling and trim, delightful finishes of smart distinction and unequalled charm can be created.

1" x 6", 8", 10", 12"— 4' to 16' lengths 32c bd. ft.

WALNUT

The most beautiful of North America's woods lends itself to paneling most graciously. Dark, gorgeously marked by nature, it has an individuality of grain design and coloring impossible to duplicate with any other wood.

1" x 6", 8", 10", 12"— 4' to 16' lengths 50c bd. ft.

WORMY CHESTNUT

Dignified dark wood adapts itself to any type of architecture. Extremely easy to "live with," and time adds a mellowness which constantly appeals to and delights the eye. Here is an economical type of paneling that will add distinction and beauty to your home or office.

1" x 6", 8", 10", 12"— 4' to 16' lengths 28c bd. ft.

KNOTTY PINE

Refer to page 24 for description and application instructions . . . and do not hesitate to ask or call us for individual help.

RED CEDAR SHINGLES

PLAIN SHINGLES — Only the highest grade Western Red Cedar is used in the manufacture of these shingles. They are made from vertical grain cedar, and will not warp, cup, rot or rattle. 16" (4 bundles to square).....\$3.95

STAINED SHINGLES — These kiln-dried stained shingles are inspected and certified by the Red Cedar Shingle Bureau. They have uniform butts, squared to right angles . . . have parallel sides . . . and are uniform in length and correct in taper; in fact, they have all the structural advantages necessary to insure a closely-woven protective covering for your roof or sidewall. In beautiful colors: Prime White, Green, Red, Brown and Grey. Packaged in a protective carton to keep them fresh and clean, easy to pile.

5/2 — 16" Brown Kolorite.....	\$6.40	5/2 — 18" Green.....	\$6.90
5/2 — 16" Green.....	6.45	5/2 — 18" Gray and Prime White.....	6.95
5/2 — 16" Gray and Prime White.....	6.50	16" Stained Shakes.....	15.50
5/2 — 18" Brown.....	6.85		

TIPS ON OVER-ROOFING — In applying a new roof, it is wasteful and unnecessary to strip off the old shingles. By applying new shingles on top of old shingles, roof insulation is doubled, and fuel is saved during cold weather.

A 5d large-headed rust-resistant nail should be used in applying the shingles, allowing two nails per shingle. Shingles should not be wetted before they are laid on a roof. Proper attention should be paid to spacing, so that there will be sufficient room for expansion during rainy weather. A space of 1/4 to 3/8 of an inch is sufficient.

Cut away first course shingles.

Replace shingles with strip of lumber and nail bevel siding, thin edge down, along each side of ridge.

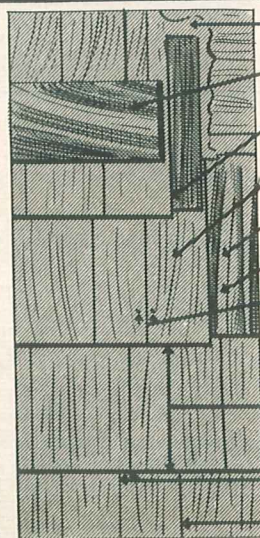

Cut back old shingles from gable edge.

Nail narrow strip of lumber along gable edge, and apply new shingles

RED CEDAR SHINGLES BRING LOW-COST, HIGH-BEAUTY SIDEWALL CONSTRUCTION!

Unsaturated Building Paper between Shingles and Sheathing.

Use Shiplap as Straight-Edge for applying both Courses.

Outer Course 1/2" lower than Under Course.

Stained or Unstained No. 1 or No. 2 Shingles or Shakes for Outer Course.

Unstained No. 2, No. 3 or Under-coursing Grade Shingles.

Each Under Course Shingle may be held in place with one 3d Nail.

Two rust-resistant, small-headed 5d Nails per Shingle for the Outer Course, applied 2" above Butt-line and 3/4" from Edges. Use a third nail in shingles wider than 8".

WEATHER EXPOSURES:
Up to 12" for 16" Shingles.
Up to 14" for 18" Shingles.

Break Adjacent Course Joints at least 1 1/2".

Either Tight or Spaced Joints.

● Proper spacing of nails, weather exposure and over-lap for double-coursed side walls. Use double-coursing nail

In sidewall construction, the lowest cost application is with a double-course of shingles (or two layers per course). Wide exposures are permissible on side walls in this type of application — and a low-cost shingle can be used for the inner, completely-concealed layer. This means fewer shingles are needed to cover a sidewall — and both materials and labor are saved.

A 16" shingle may be exposed 12"; and an 18" shingle, double-coursed, 14". This results in a "square" of shingles covering about 125 to 135 feet. 5d, small-head, rust resistant nails are used, driving nails in about 2" above the butt line, two nails to a shingle. The courses are sharply separated by heavy bands of shadows, which produce a distinct and beautiful effect.

A double-coursed sidewall is better able to withstand hail and windstorms of unusual intensity. The insulation value is equivalent to four 1/2" insulating boards, commonly sold for this side wall insulation, according to proof establishes in the laboratories of the College of Forestry of the University of Washington.

* Resin Sealed — Plywood not marked EXT. is regular glue bonded and is moisture resistant.

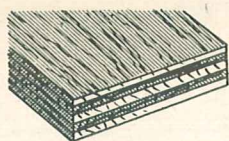

Pon. Plywood is California Pine Plywood — light in weight — soft uniform texture. It will paint, enamel better than fir. It is the finest of Softwood Plywoods.

So₁S is Sound on 1 side with a utility back and suitable where plywood of 1 face surface is required. So₂S is Sound on 2 sides and is used where plywood shows on two faces.

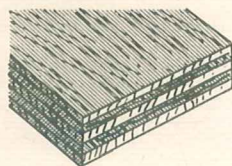

PLYWOOD

Plywood is a sandwich consisting of thin layers of wood veneer bonded together with glue. Each veneer is laid at 90° angles to each other which gives plywood its strength.

PLYWOOD SPECIALS

PLYFORM PLYWOOD — FIR

Especially made to be used in pouring concrete. It is prepared with water resistant glue — oiled and edge sealed.

48 x 96 — 9/16 Sanded 2 Sides	.32 per sq. ft.
48 x 96 — 5/8 Sanded 2 Sides	.39 per sq. ft.
48 x 96 — 3/4 Sanded 2 Sides	.46 per sq. ft.

PLYSCORD SHEATHING — FIR

Rough unsanded both faces — one face sound. Made with water-resistant glue. Suitable for house sheathing, sub-flooring, linoleum base, etc.

48 x 96 — 5/16	.15 per sq. ft.
48 x 96 — 3/8	.18 per sq. ft.
48 x 96 — 1/2	.22 per sq. ft.
48 x 96 — 5/8	.29 per sq. ft.

EXTRA THICK PLYWOOD

48 x 96 — 1" So ₁ S Pon. Pine. Sanded 2 Sides	.62 per sq. ft.
48 x 96 — 1" So ₁ S Fir Ext. Sanded 2 Sides	.58 per sq. ft.
48 x 96 — 1 1/8 So ₁ S Fir Ext. Sanded 2 Sides	.68 per sq. ft.
48 x 96 — 1 3/8 So ₁ S Fir. Sanded 2 Sides	.75 per sq. ft.

STRIATED FIR PLYWOOD

This is a decorative plywood — irregular grooved face. Suitable for two-tone paint or lacquer finish. It is an excellent wall covering for dens, bars, dining rooms, breakfast nooks, recreation rooms and display fixtures. All grooves are equally in line on each piece which permits the use of the plywood in diamond pattern at 45° angles.

48 x 96 — 5/16 Interior grade — Regular glue	.27
48 x 96 — 3/8 Exterior grade — Waterproof glue	.35

* Resin Sealed — Plywood not marked Ext. is regular glue bonded and is moisture resistant.

FIBRE WALL BOARDS

BEAVER BOARDS

First grade fibre board with a pebbled and embossed face. Suitable for display and partitioning work.

Beaver Board, 3/16", 48" x 6, 7, 8, 9, 10 and 12', 10 pcs. per bdl. \$60.00
32" and 64" widths also available.

Beaver Slate Surface — Black and Green, 42 x 72 and 36 x 72 150.00
The carborundum finish on this board makes a very serviceable black board for schools or offices.

KENMORE BOARD

A specially treated smooth two-side board readily adaptable to display work in temporary office partitioning.

Kenmore Board, 3/16", 10 pcs. per bdl., 4 x 6, 4 x 7, 4 x 8, 4 x 9, 4 x 10, 4 x 12 and 4 x 14 \$55.00

UPSON TILE-BOARD

An excellent fibre board with 4" Tile impressions to be used in baths or kitchens. Ready to paint or enamel in any color combination desired. 4 x 8 —

1 side, 10 pcs. per bdl. \$80.00

UPSON BOARD

Stabilized fibre board of high quality for general work with pebbled face.

Upson Board, 3/16", 11 pcs. per bdl. 4 x 6, 4 x 7, 4 x 8, 4 x 9, 4 x 10 and 4 x 12 \$65.00

UPSON EASY-CURVE BOARD

A new lightweight flexible board which can be curved with the grain to diameters from 6" up (or against grain where necessary) and used in forming columns or curves of all characters and types. Pebbled one side; smooth other side. In 1/8" thick panels, 48" wide by 10 feet long. Natural ivory finish, takes oil, Temptra colors, or lacquers. 4 x 10 — 20 pieces per bdl. . . \$45.00

SQUARE DEAL BOARD

A pebbled finish board of unusual quality. Can be easily trimmed and cut with a cutall.

Square Deal Board, 3/16", 11 pcs. per bdl. 4 x 6, 4 x 7, 4 x 8, 4 x 9, 4 x 10 and 4 x 12 \$60.00

WALLBOARDS

EVERWEAR PLASTIC BOARD

3' x 8' and 4' x 10' Sheets, 1/16" thick. to 200 sq. ft. 65c sq. ft.
In lots of 201 to 1000 sq. ft. 58c sq. ft. • In lots of 1001 to 10000 sq. ft. 54c sq. ft. • In lots over 10000 sq. ft. . . . 48c sq. ft.

A plastic laminated board which is very hard, with a smooth semi-glossy finish. It's washable, warm to touch, durable and beautiful. It is not affected by oil, citrus juices or common household acids and alkalis; and it's cigarette and alcohol proof, too! Designed for bars, table tops, soda fountains, sink tops; exterior uses, also, in bathrooms, shower rooms and kitchens. Easily installed by bonding to flat or wall surfaces, can be sawn, planed or drilled with carpenter tools.

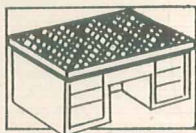

Linen finishes — tan, grey, red, blue, green.

Tweed finishes — tan.

Solid colors — grey, ivory, blue, fawn, green, brown, red.

BONDING AGENTS FOR PLASTIC BOARD — Resin — 5 lb. can. \$3.25

TUFF BOND ADHESIVE — gal. \$4.90 qt. \$1.50 pt.80 1/2 pt.50

TABLES

WALLS

HOMASOTE (Insulating Board)

4' x 6' — 7, 8, 9, 10, 12, 14' (not bundled) 8 1/2c sq. ft.
6' x 6' — 8, 10, 12' (not bundled) 8 1/2c sq. ft.
8' x 6' — 8, 10, 12, 14' (not bundled) 8 1/2c sq. ft.

Big Sheets — 8 x 14, 8 x 12, 8 x 10, 8 x 7, 8 x 6, 6 x 12. Crating for out of town shipment extra.

A waterproof insulating board of unusual strength. This board will save time and money in all types of emergency construction. It will stand up to the weather and give an exterior finish, plus backing strength and insulation — all in one board. All Homasote panels must be expanded by sprinkling each sheet lightly overnight before applying.

TEKWOOD (3-ply laminated board with tough hardwood core)

4' x 8' — 1/8" 7 1/2c sq. ft.

An exceedingly strong, but feather-light board. It is flexible and can be bent to an angle of 180 degrees without breaking the core. Yet when the panel is supported at the edges it is rigid. Excellent for cutting out letters, etc. Will not blow out on the back. Economical, too!

STRUCTO BOARD

4' x 6', 7', 8', 10', 12' — 1/4" 7 1/2c sq. ft.

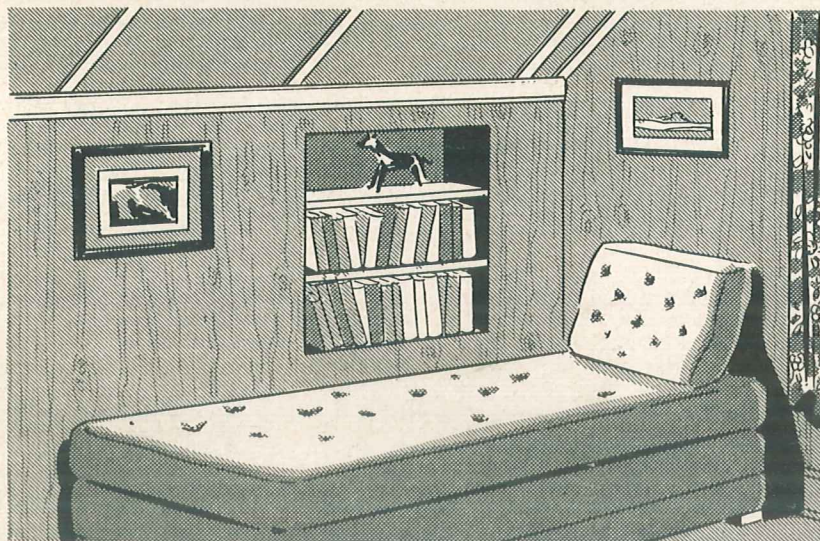

A smooth dark brown board, easily worked and light to handle. Takes paint excellently.

ATLAS BOARD

4' x 8' — 1/8" 4c sq. ft.

"Black mastic" — an asphalt saturated board suitable for temporary coverings.

SHEETROCK FIREPROOF WALLBOARDS

SHEETROCK, the fireproof plaster wallboard, makes permanent walls and ceilings for new or old rooms which can be decorated or redecorated in any manner such as with wood or metal mouldings, all types of paints and wallpapers.

Sheets may be cut easily by a saw . . . or with a knife, by cutting the paper on both sides; the sheet can then be broken in an even smooth piece.

The joints between boards may be left visible or covered with batten strips or mouldings. Perf-a-tape provides an improved permanent reinforcement at the joint between boards, and simultaneously conceals the joint. This permits economical horizontal application. Recessed edge sheetrock sheets form a channel at each joint. The channel is filled with special cement, quickly and easily applied and Perf-a-tape is then bedded in the cement. After drying, cement is sand-papered for a smooth unbroken surface.

1/4" SHEETROCK Wallboard, 3 pcs. per bdl., 4 x 6, 7, 8, 9, 10 and 12' (square edge)	\$47.50
3/8" SHEETROCK Wallboard, 2 pcs. per bdl., 4 x 6, 7, 8, 9, 10 and 12' (recessed, square edge and beveled)	50.00
1/2" SHEETROCK Wallboard, 2 pcs. per bdl., 4 x 6, 7, 8, 9, 10 and 12' (recessed and squared)	60.00
1/2" 2 x 8 T & G Gyplap Sheathing, black paper covered	55.00
3/8" Adamant Liner Plasterboard, 32" x 48", single sheets	48.00
3/8" Rocklath Plaster Base, 6 pcs., 16 x 48 per bdl. (32 sq. ft.)	45.00
3/8" Wood-grained SHEETROCK, 4 x 6' to 4 x 10', 2 pcs. per bdl.—Bleached Mahogany, Walnut and Knotty Pine, 1 side (see cut below)	80.00
3/8" Insulating SHEETROCK, 4 x 6' to 4 x 10', 2 pcs. per bdl. (square or recessed edge)	80.00
3/8" SHEETROCK Tileboard, 4 x 6' to 4 x 10', 2 pcs. per bdl.	75.00
Perf-a-Tape Package of 250 lineal ft.—cement included (enough for approximately 750 sq. ft. of board), see cut	4.50
Perf-a-Tape Package of 60 lineal ft.—cement and plastic knife included (for approximately 180 sq. ft. of board)	2.00
SHEETROCK Finisher — 5 lb. carton, each50
SHEETROCK Tape Knife, 4", each	1.20

NAILING SHEETROCK WALLBOARDS

KIND OF NAILS — The kind of nail used is important. Never use a nail less than 1 1/8 in. long.

For nailing SHEETROCK Wallboard directly to studs, joists and furring, use a 4d cement coated, common nail with flat head. Estimate 1 pound for every 200 sq. ft. of board.

On buildings of two stories or more with floor above a SHEETROCK Wallboard ceiling, it is preferable to use 4d cement coated, common nails (flat heads). Estimate 1 lb. to 125 sq. ft. of board.

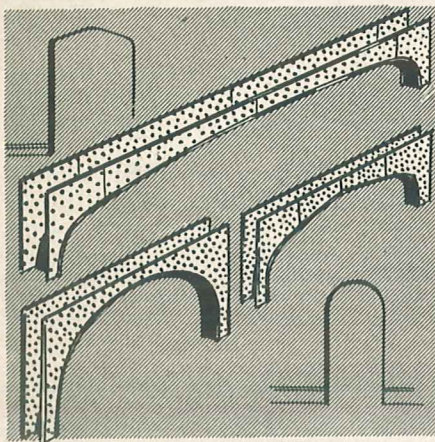

On old plastered walls that are not furred, use 6d cement coated, common nails (flat heads). Estimate 1 lb. to 75 sq. ft. of board.

DRIVING NAILS — Drive all nails home with heads slightly below the surface. Do not use a nail set. Draw all edges of SHEETROCK Wallboard firmly and evenly against supports.

SPACING NAILS — On all supports nails should be spaced 5 to 7 inches apart on ceilings, 6 to 8 inches apart on walls. Nails should be spaced 3 in. apart and 3/8" from the edge. Do not stagger nails on joining edges.

FINISHER — For every 1000 sq. ft. of SHEETROCK Wallboard estimate two 5 lb. packages of Finisher, or 375 lineal feet of Perf-a-Tape (cement included).

METAL ARCHES

METAL PLASTER ARCHES

A ready-formed plastering arch for doorways, etc. Eliminates the construction of curved forms and the forming of corner bead on curves. Constructed for standard 2 x 4 partitions. The various units have many combination possibilities.

No. 11	10" Rad. (True half circle)	each	\$2.95
No. 22	15 3/4" Rad. (True half circle) for 30" opening (33" stud space)	each	\$3.65
No. 33	Gothic design for 2'6" opening	each	4.10
No. 36	Elliptic design for 3'0" opening (39" stud space)	each	4.20
No. 44	Gothic design for 4'0" opening (51" stud space)	each	4.40
No. 55	Elliptic design for 5'0" opening (63" stud space)	each	4.75
No. 66	Elliptic design for 6'0" opening (75" stud space)	each	4.90

RED TOP SANDED PLASTER Grey Base coat for new jobs. Goes over all types of lath.
Per 100 lbs. (paper bag) \$.80
Per ton 14.50

FINISHING LIME Final hard white finish. Mixed with 5 quarts Lime Putty to 1 part gauging plaster.
Per 50 lbs. (paper bag)75
Per ton 27.00

METAL LATH

Red Top Diamond (5/16 x 9/16) Mesh Lath, sheet size 27" x 96", packed 10 sheets (20 yds.) per bundle, weight 2.2 lbs. per sq. yd. per sheet \$.65

WOOD LATH

100 pcs. 4 ft. lengths. Fir, rough \$3.00 per bdle.

KEYSTONE MONOLATH

16" x 48" 1/4"	\$70.00
48" x 96" 1/4"	70.00

This board serves as an excellent plaster base. Here is a very good and high rigidity board. Uses on 16" center studding it provides a moisture barrier as well as rigid support. The larger sheet saves time and labor and gives you the finest kind of a plaster job.

REYN-O-LATH

PLAIN FLAMEPROOF REYN-O-LATH 48 3/4" x 31". 120 lb. Flameproof Kraft paper backing, 16 gauge copper bearing steel wires, 28 gauge "V" shaped steel ribs.

44c sq. ft. in lots of \$ 99.00 or less	37c sq. ft. in lots of \$250.00 or more
40c sq. ft. in lots of 100.00 or more	35c sq. ft. in lots of 500.00 or more

PLAIN GALVANIZED 48 3/4" x 31". 120 lb. Flameproof kraft paper backing, 16 gauge galvanized steel wires, 28 gauge galvanized "V" shaped ribs.

51c sq. ft. in lots of \$ 99.00 or less	43c sq. ft. in lots of \$250.00 or more
50c sq. ft. in lots of 100.00 or more	41c sq. ft. in lots of \$500.00 or more

WOOD FIBRE PLASTER Base coat for repair jobs. Doesn't require sand and contains long fibrous material. Goes over all types of lath.
Per 100 lbs. (paper bag) \$1.20

TOPPING CEMENT For repair work only. Add water.
Per 100 lbs. (paper bag)75

SMALL NOSE CORNER BEAD Used for reinforcing outside corners of plastered walls, can also be bent for plastered arches.

Galvanized Steel — 26 Gauge

No. 4A Flexible 1 1/2" flange, standard type 8 ft. lengths \$.32 ea.

3/4" Hilite Tile

(2) Slicing Tool
(1) Grooving Tool
(3) Beveling and Rabbeting Tool

Conforms to U. S. Government Specifications: Weatherwood meets all requirements of Federal Specifications LLL-F-321a—Insulating Fiber Board. In order to meet this specification the product must have certain qualities with respect to conductivity, transverse strength, deflection, tensile strength, lineal expansion and water absorption.

PHYSICAL CHARACTERISTICS

EFFICIENT INSULATION — Weatherwood helps make the home warmer in winter and cooler in summer. It not only reduces fuel costs, but makes homes easier to heat and in addition reduces drafts. The insulation value of 1" of Weatherwood is equivalent to a 15" brick wall, 3" of lumber, or 37" of concrete.

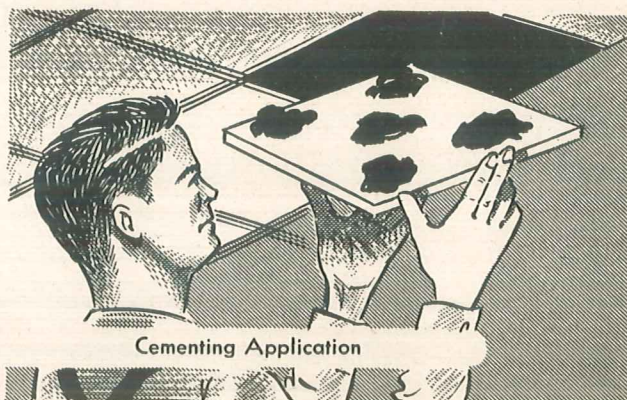

STRENGTH — The toughness and rigidity of Weatherwood are important properties of this material. Any structure built with Weatherwood is stronger and resists distortion.

SURFACES — The distinctive surface of Weatherwood is one of its most important features. Scuffing and marring are reduced to a minimum because of the durability of this surface.

PAINTING — Water paint covers efficiently and economically with hardly any loss of insulation value. Oil paints cut off insulation value and give a glossed hard surface.

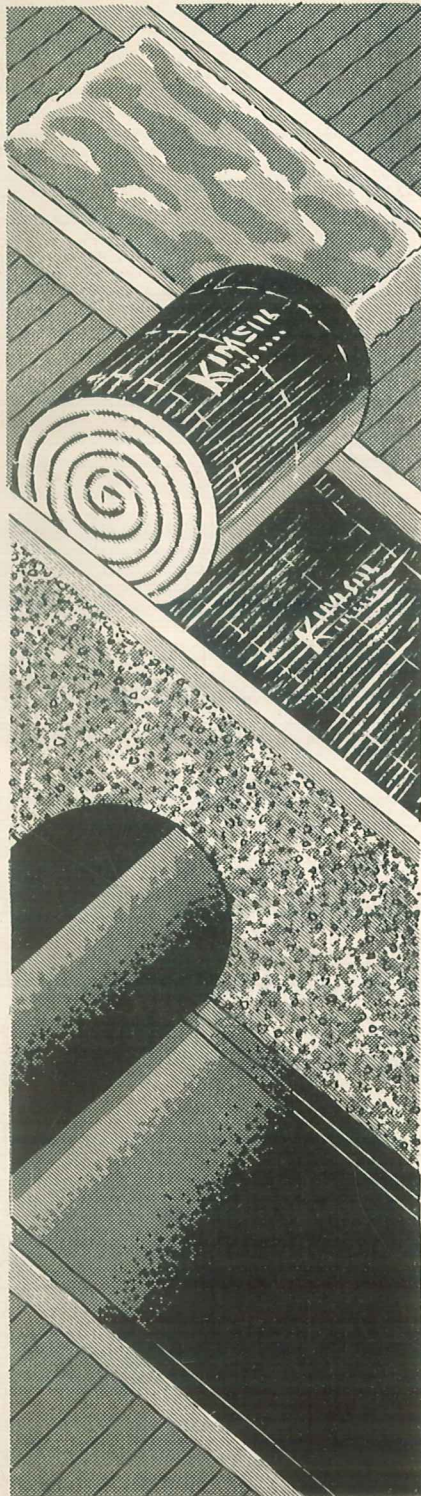

Nailing Application

Cementing Application

INSULATION

BALSAM WOOL

The only pure wood fibre blanket type of insulation. Completely sealed with strong waterproof paper with nailing flange to fit between standard studding. Very high in insulation value.

ROCK WOOL BATTS

The finest grade of rock wool — is formed into a uniform size and thickness called a Batt. It is fastened to a water-repellent paper on one side by a binder, and has a flanged edge for fastening into place. This form insures permanent and controlled insulation savings. (See prices below.)

MICALITE INSULATION (Expanded Mica)

This is a highly suitable form of insulation material for pouring. It saves fuel, resists fire, saves labor, and deadens sound. It is packed in bags ready for use, covering 18 square feet, 3" thick.

KIMSUL

Wood fibre impregnated in asphalt makes Kimsul insulation one of the best "heat stoppers" known. Faced with a rough waterproof coating it resists rough handling and will not settle. Packed in easy-to-handle lightweight rolls.

LOOSE ROCK WOOL

Packed in bags for convenient handling and installation. Used where quick horizontal coverage is required. This rock wool is very clean of shot and high in insulation value. Its low cost provides maximum insulation at minimum cost. Coverage is 15 to 17 square feet 4" thick, and 30 square feet 2" thick.

	Per M Sq. Ft.
Balsam Wool, Standard, 16", 20", 24" and 33" widths in rolls of 200 sq. ft.	\$65.00
Balsam Wool, Double, 16", 20", 24" and 33" widths, in rolls of 100 sq. ft.	85.00
16" Thick Blanket Glass Wool — 40 sq. ft.	85.00
16" Med. Blanket Glass Wool — 60 sq. ft.	75.00
24" Med. Blanket Glass Wool — 60 sq. ft.	75.00
24" Thick Blanket Glass Wool — 40 sq. ft.	85.00
23" x 48" Medium Glass Wool Batts	75.00
23" x 48" Thick Glass Wool Batts	85.00
10 $\frac{3}{4}$ " x 15" — 4" (Not paper backed) Glass Wool Batts	70.00
Rock Wool Batts, 15 x 23", full thick, paper backed, 25 sq. ft. per carton	75.00
Rock Wool Batts, 15 x 23 x 2" thick, paper backed, 30 sq. ft. per carton	55.00
Rock Wool Batts, 15 x 48", full thick, paper backed, 8 batts, 40 sq. ft. per carton	75.00
Rock Wool Batts, 15 x 48 x 2" thick, paper backed, 12 batts, 60 sq. ft. per carton	55.00
Rock Wool, loose fill (in bags), covers 30 sq. ft. 1" thick, each	.98
Micalite, 18 lb. bags, covers 20 $\frac{1}{4}$ ft., 2" thick, per bag	1.10
Granulated Rock Wool (in bags), 40 lb. bag covers 40 sq. ft. 2" thick	1.10
Kimsul (Blanket Type) Insulation, 16" Dbl. Thick, 100 sq. ft. per bundle	75.00
Kimsul (Blanket Type) Insulation, 20" Dbl. Thick, 100 sq. ft. per bundle	75.00
Kimsul (Blanket Type) Insulation, 24" Dbl. Thick, 100 sq. ft. per bundle	75.00
Kimsul (Blanket Type) Insulation, 16" Std. Thick, 200 sq. ft. per bundle	45.75

TUFFLEX

33" x 100' — 1/4" thick, 40 lbs. Kraft paper, asphalt saturated back, with insulation wool attached. An excellent underliner for application jobs \$65.00

LOOK WHAT YOU CAN DO WITH WOOD CABINETS:

Only wood cabinets give you the chance to fully express your personality in your kitchen! You can stain them, shellac them, paint them. You can decorate them, decal them, trim them. You can install one unbroken counter top, finish it off with colorful linen or tweed finish Dougherty plastic everwear board. You can fit them, shape them, adjust them so they nestle just right, right where you want them!

Warm, soft-textured Ponderosa Pine is used in these matching cabinets. Extra holes are provided for uprights for shelf adjustment. Dust-tight lips and polished hardwood guides give each drawer smooth, gliding efficiency.

WOOD KITCHEN CABINETS

MATCHED KITCHEN UNITS ARE VERY ECONOMICAL!

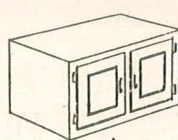

Not only are these cabinets low in original price, but they cost surprisingly little to install and maintain! Each unit is fully assembled at the factory by experienced cabinet makers, and may be easily installed by any carpenter.

All parts are dipped in a toxic water-repellent to protect wood against moisture absorption during storage and after installation. This treatment also gives one priming coat. A wide variety of cabinet styles and sizes are carried in stock to serve you more completely and more quickly.

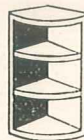

All wall cabinets are 14" deep and 32" high; all base cabinets are 18" deep and 36" high.

- A. Two-door Wall Cabinet, 30" wide — \$21.50. 34" wide — \$22.75. 42" wide — \$25.50.
- B. What-not Shelves, 14" wide — \$7.88.
- C. One-door Wall Cabinet, 18" wide — \$15.75. 22" wide — \$16.85.
- D. Two-door Wall Cabinet, 30" wide, 16" high — \$15.25. 34" wide, 16" high — \$15.85. 42" wide, 16" high — \$17.75.
- E. Cutlery, Linen Base Cabinet, 24" wide — \$22.50. 32" wide — \$27.00.
- F. One-door, One-drawer Base Cabinet, 18" wide — \$16.85. 22" wide — \$18.85.
- G. Two-door, Two-drawer Base Cabinet, 30" wide — \$22.85. 34" wide — \$23.25.
- H. Splayed-front Wall Corner Cabinet, 16" wide — \$22.85. Splayed-front Base Cabinet (Not pictured), 16" wide — \$19.25.
- I. Base Corner Shelf, 18" wide — \$8.88.
- J. Two-door Sink Front, 30" wide — \$12.50. 34" wide — \$17.75. 42" wide — \$17.75.

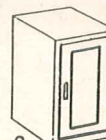

Cabinets have friction catches for all doors and drawers. Offset hinges for all doors are attached. Screws and nails are also included for applying catches and pulls. Each unit comes packed in dust-tight corrugated cartons. Counter tops sold separately.

Youngstown Kitchens...

Kitchenaid 42" Deluxe

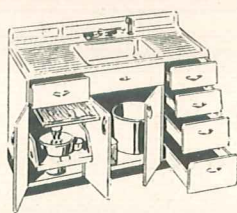

Kitchenaid 42" Twin

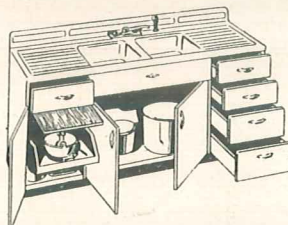

Kitchenaid 48" Twin

SIMPLE TO INSTALL

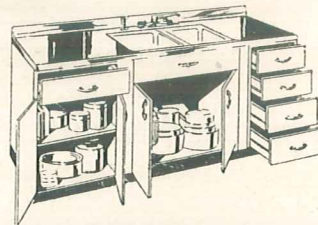

It is a matter of a few hours to install these cabinets, because they come already for you to put into your own kitchen without any costly remodeling.

Kitchenaid 54" Deluxe

Kitchenaid 66" Twin

Custom Kitchenaid

DECIDE TO HAVE A MODERN KITCHEN NOW!

Look at the Youngstown features:

Spacious work areas, more storage room, and the easiest surface in the world to keep immaculately clean — baked enamel! Smooth as satin, free from crevices, with a shiny stainless steel back splash to do away with warped and water-rotted tops.

There is recessed toe-room, attractive chrome hardware, with silent, well-fitted drawers and doors, in a variety of sizes.

The cost of these cabinets is surprisingly low. A complete kitchen including a "Kitchenaid" cabinet sink and all the floor and wall cabinets you need can be purchased on our Budget Plan for as little as \$12.00 a month.

All 1-light storm sash to be priced at 2/3 of the price of the corresponding size in 2-light. All storm sash not shown above to be figured as special at 80c per square foot, opening size to break on 6" basis at a minimum of 5 sq. ft. Cellar storm sash and oriel storm sash to be figured on the special basis.

No storm sash cut up in small lights available in above sizes. The only cut-up storm sash that can be made are extra large sizes such as picture windows, where glass that large is not available and sash may have to be cut 4 lights.

To measure a window for storm sash, the easiest way is to measure the width and height of the glass from the outside edge of the putty. If the top and bottom sections of your double-hung window are different sizes, be sure to measure both panes of glass. To double-check yourself, the outside overall size, including the wood, should be 4 1/2" wider and 6 inches longer than your glass size.

Storm Sash Adjusters, to hold sash out for ventilation.....	75c pair
Storm Sash Hangers, cadmium plated.....	15c set
Combination Door Closers.....	\$1.50 to \$2.25

ALUMINUM WINDOWS

ALUMINUM DOUBLE HUNG WINDOWS

This window has all the advantages of a wood double-hung window, plus many unique features of its own . . . yet it costs no more than any other quality window.

Just look at this line-up of special advantages: PREFIT — comes completely assembled and adjusted in its own frame, ready to place in opening; LIGHT-WEIGHT — easy to carry, easy to install; SIDE BALANCED — no weights, pulleys or cords to wear out and replace; CAN'T WARP OR STICK — open and close with the touch of a finger; NEVER NEED PAINTING — cannot rust, rot or wear out; BUILT-IN WEATHERSTRIPPING — stops drafts, keeps out cold and rain, lowers fuel costs; easily screened and storm-sashed from the inside . . . smart in appearance . . . increases visibility . . . and increases the resale value of a home.

CURTIS MILLWORK

● THE FINEST QUALITY IN WOODEN CRAFTSMANSHIP FOR YOUR HOME

VANCOUVER ENTRANCE FRAME

A variation of the broken scroll, pediment-type entrance. Complete frame consists of cap, pilasters, casings, architraves, jambs, threshold sill and apron. Made of W. P. Pine, with oak sill. Toxic treated with water-repellent preservative. The frame is shipped with cap set up; pilasters and back casings assembled; pilaster caps and bases loose to facilitate height adjustment; jambs, sill, apron and adjustable architraves loose complete, \$124.75

MANTEL

\$55.50

This mantel is a reproduction from the old Webb house at Wethersfield, Connecticut, where several councils of war were held under Washington. It would be difficult to find a traditional mantel of more rare beauty!

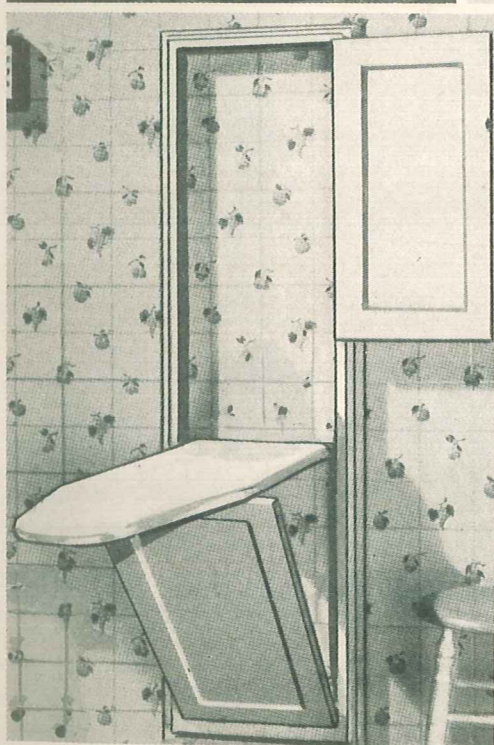

Dimensions: Height to top of shelf, 4' 5 1/4"; Length overall of shelf, 6' 6 5/8"; Width to shelf, 7 1/4"; Width over body of mantel, 5' 4 1/2"; Height of wood opening, 3' 1 1/2"; Width of wood opening, 4' 3"; Height of grate opening, 2' 6"; Width of grate opening, 3' 0". Available in-the-white in W. P. Pine.

IRONING BOARD CABINETS

\$21.10

This on-the-wall design requires only 18" of wall space. No plaster need be torn out; simply screw the case to the wall! Holes for the screws are factory drilled in the case, spaced to strike adjacent studs. Metal pins at the sides of the board slide in metal channels so that all possible chance of sticking is eliminated. The board locks securely in position for use.

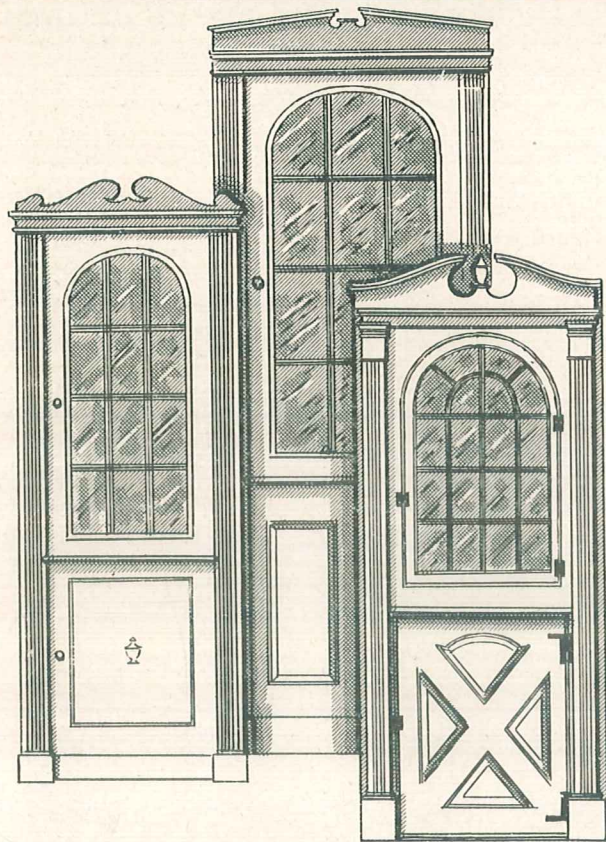

Overall size of the case is 1' 5 3/4" wide; 5' 3 1/2" high and 2 1/2" deep. The board itself is 4' 4" long, 12 1/4" wide and full 1" thick. It is carefully shaped with smoothly rounded edges, designed to take a cover neatly.

OTHER PRODUCTS BY CURTIS:

● PREFIT, WEATHERSTRIPPED WOODEN WINDOWS ● PICTURE WINDOWS AND CASEMENTS ● KITCHEN CABINETS IN DELUXE QUALITY ● EXTERIOR AND INTERIOR TRIM ● STAIRWORK AND DOORS — BOTH EXTERIOR AND INTERIOR ● GARAGE DOORS.

LAMP POSTS

Wood turned, tapered Fir, no lamp,
bored. \$17.75

A Cape Cod lantern mounted on 8'
white wooden post, hexagon con-
struction, with 1" core through center
of post for wiring. 18" bottom, creos-
oted, ready to paint. Brass lantern on
top, painted black with brass eagle
on top. \$28.50

SLATE FLAGGING

For a permanent walk, at low cost, these natural slate flaggings
present a harmony of colors that cannot be excelled. It may be
by two methods:

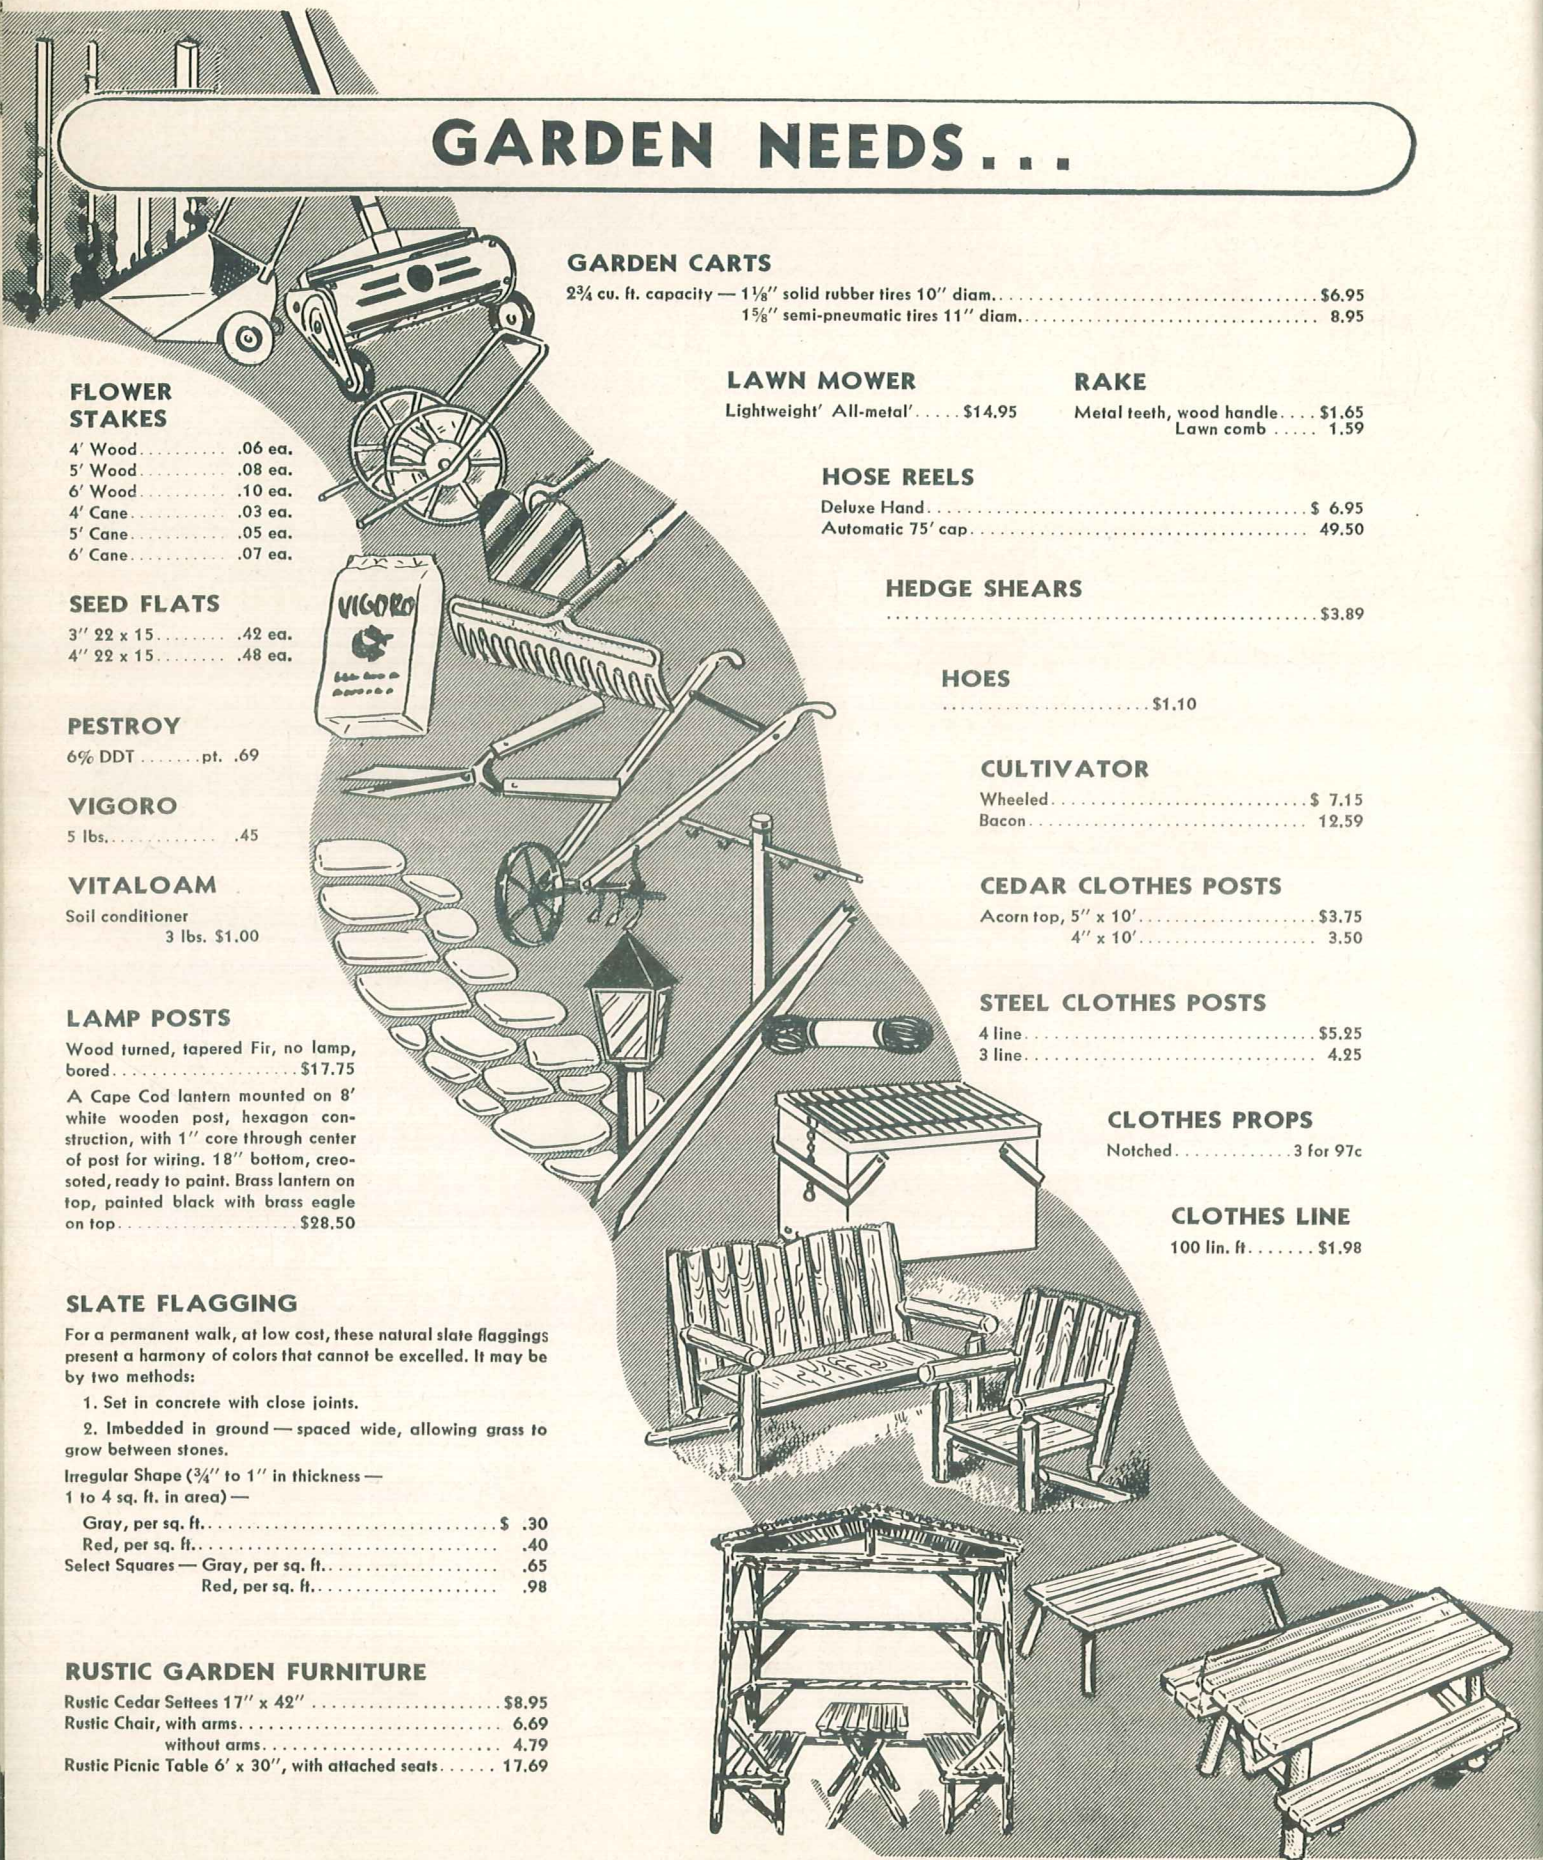

1. Set in concrete with close joints.
2. Imbedded in ground — spaced wide, allowing grass to
grow between stones.

Irregular Shape (3/4" to 1" in thickness —
1 to 4 sq. ft. in area) —

Gray, per sq. ft. \$.30
Red, per sq. ft.40
Select Squares — Gray, per sq. ft.65

BUILD YOUR OWN GARAGE!

IT'S EASY! IT'S PRACTICAL! IT'S ECONOMICAL!

A FULL LIST OF MATERIALS COSTS ONLY \$262 FOR A 12 x 18 ALUMINUM GARAGE

You can erect your own garage for less than you imagined — with the materials listed on this page! Materials for both the aluminum and wood garages are FHA approved, and can be bought on a sensible, low-cost budget plan.

In addition to protecting and maintaining the condition of your car, a garage will add to the value of your property, give your house and grounds a more complete look, and will furnish additional storage space for tools and garden equipment.

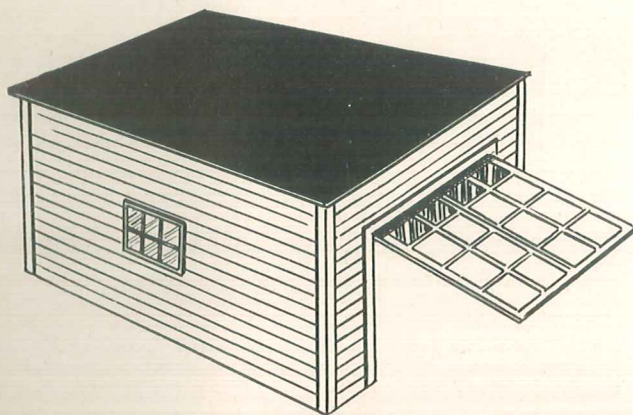

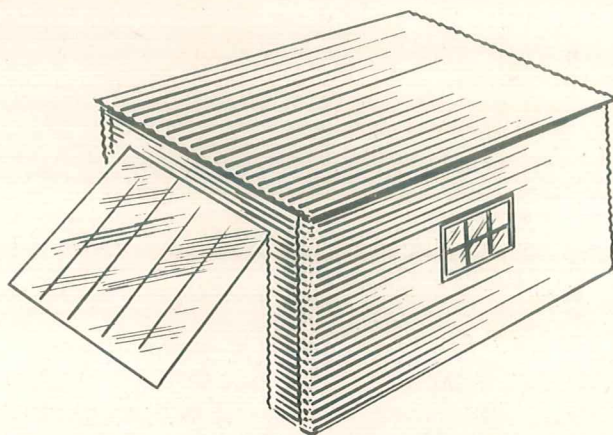

ALUMINUM GARAGE . . . \$262

WITH FLAT ROOF, CORRUGATED SHEETING
ALL MATERIALS FOR 14 x 18 GARAGE

24 inch on center studding

LIST OF MATERIALS

- 4 pcs. 2 x 4 — 20 No. 2 Com. Yellow Pine or W. Fir S4S
- 4 pcs. 2 x 4 — 14 No. 2 Com. Yellow Pine or W. Fir S4S
- 40 pcs. 2 x 4 — 8 No. 2 Com. Yellow Pine or W. Fir S4S
- 15 pcs. 2 x 6 — 16 No. 2 Com. Yellow Pine or W. Fir S4S
- 575 sq. ft. — 26" x 6' and 8' Corrugated Aluminum Siding
- 560 sq. ft. — 4' x 8' Monolath Sheathing — (a rigid, moisture-proof board)
- 1 Aluminum Overhead Canopy-type Garage Door complete with Hardware
- 2 Barn Sash 8 x 10 — 6 light
- 40 lbs. Nails — rust proof

WOODEN GARAGE . . . \$285

WITH FLAT ROOF, DROP SIDING
ALL MATERIALS FOR 14 x 18 GARAGE

16 inch on center studding

LIST OF MATERIALS

- 4 pcs. 2 x 4 — 20 No. 2 Com. Yellow Pine or W. Fir S4S
- 2 pcs. 2 x 4 — 14 No. 2 Com. Yellow Pine or W. Fir S4S
- 60 pcs. 2 x 4 — 8 No. 2 Com. Yellow Pine or W. Fir S4S
- 650 bd. ft. 1 x 6 Drop Siding, Phila. Fencing, or 1/2 x 6 Lap Siding No. 2 Com. Yellow Pine

ALUMINUM PRODUCTS

CORRUGATED ALUMINUM SHEETS

	(.019")	(.024")
1 1/4" corrugation 26" wide — 6', 8', 10' and 12'	.14 sq. ft.	17. sq. ft.
2 1/2" corrugation 26" wide — 6', 8', 10' and 12'	.14 sq. ft.	17c. sq. f.

Light to handle, easy to apply . . . excellent for farms, factories, and warehouses. Can be used for construction shanties, barricading, garages, and interior and exterior trim. Also fine for window and interior displays.

5 V CRIMP ALUMINUM

26" x 6', 8' and 10' (12 pcs. per bundle) .024" thick . . . 18c sq. ft.

A flat aluminum sheet with a V in the middle and two Vs on each side. Gives 24 inch coverage, with nails driven on the outside crimp. A ridge roll (also in aluminum) caps the sheets.

FLAT SHEET—.024" THICK

Size, Inches	
28 x 72	\$2.03 ea.
28 x 96	2.70 ea.
28 x 120	3.36 ea.
28 x 144	4.05 ea.

FLAT SHEET—.019" THICK

28 x 72	\$1.67 ea.
28 x 96	2.23 ea.
28 x 120	2.79 ea.
28 x 144	3.33 ea.

PLAIN RIDGE ROLL

9-1/3" x 10'	\$1.76 ea.
ALUMINUM NAILS. With Neoprene washers attached	1.55 lb.

FORMED VALLEY—.024" THICK

14" wide — 10' lengths	\$2.79 ea.
------------------------	------------

SNAP SEAL ROOFING

24" x 6', 8', 10' and 12' lengths, plain (12 pcs. per bundle)	23c sq. ft.
24" x 6', 8', 10' and 12' lengths, embossed (12 pcs. per bundle)	23c sq. ft.

Snap seal roofing has a weather-tight interlock that covers the nails. The light weight of each sheet means lower labor cost at every stage of handling and erection. An ideal modern roofing for homes, farms, industrial and commercial buildings. .022" thick.

SHINGLES

Master Shingle, 8" x 14 1/2"	\$32.66 per 100 sq. ft.
------------------------------	-------------------------

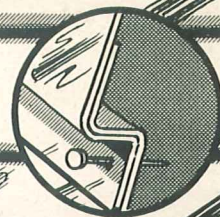

These interlocking shingles form air spaces, make the installation weathertight. They are self aligning, with no nails exposed. Maintenance worry eliminated — no painting necessary.

STANDING SEAM ROOFING (Stippled Embossed)

26 1/2", .019" thick; 101 lin. ft. per roll, coverage 2 squares	18c sq. ft.
20", .019" thick; 141 lin. ft. per roll, coverage 2 squares	17c sq. ft.

Clip stock and nails included. Roofing forms a weather-tight, fire-proof, continuous aluminum roof unpierced by nails. It is practical for a roof slope as low as 2 inches per foot. It is versatile, adaptable to curved slopes and most architectural designs. The embossing removes glare even from a new installation. Should be installed by a roofer.

- RUST-PROOF • FIRE-PROOF • NEEDS NO PAINTING
- INSULATING • ECONOMICAL • LASTS A LIFETIME

ALUMINUM WEATHERBOARD SIDING (.024" Thick)

25½" x 8', 10', 12' lengths (12 pcs. per bundle) 20c sq. ft.

Applied horizontally with nail placed under the crimp. Gives an effect of 4 inch exposed clapboard surface. Thick Butt depth with prominent shadow line. 100 nails and Neoprene washers furnished for each square. (Weatherboard illustrates above.)

ALUMINUM CLAPBOARD SIDING

.032" thick. Exposed surface: 8"; 12 ft. lengths 32c sq. ft.

Easy to erect! The only tools required are a hammer, pliers, metal saw and mitre-box. Insulates by reflecting radiant heat. All the beauty of wood siding without the danger of fire, rot, vermin and termites. Cuts painting costs.

ALUMINUM INSULATING CEILING PANEL

.020" thick; 24" x 48" panels, fluted \$2.00 ea. or 27½c per ft.

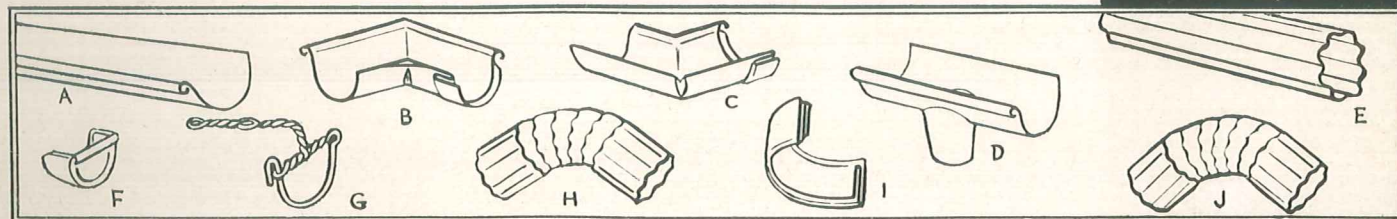

Light to handle! Minimum ceiling load. Never sag. Reduces wattage, and aluminum's famous radiant heat reflects and gives ceiling insulation. Translucent baked-on enamel finish. Packed in bundles of 50.

ALUMINUM ACOUSTICAL CEILING PANEL

.020" thick; 24" x 48" panels fluted and perforated \$2.44 ea. or 30½c sq. ft.

Perforated for maximum passage of sound waves. 1" fireproof glass wool or (equivalent) acoustical backing should be used above the furring strips. This backing plus the air space formed by the furring strips provides a total sound absorption up to 70%. Packed in bundles of 50.

ALUMINUM GUTTER

- A. Eaves Trough (Single Bead Slip Joint) 5" x 10' (.027") ea. \$2.70
 B. Mitre, Single Bead, Slip Joint outside, 5" (.027"), ea. .83
 C. Mitre, Single Bead, Slip Joint Inside, 5" (.027"), ea. .81

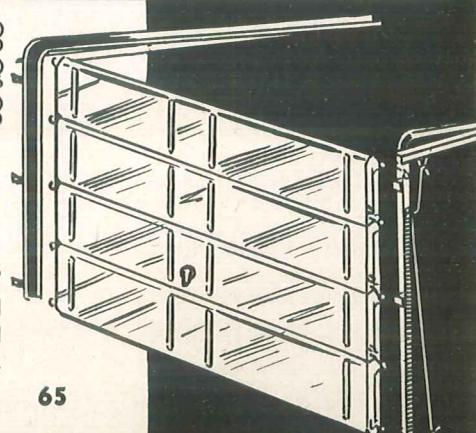

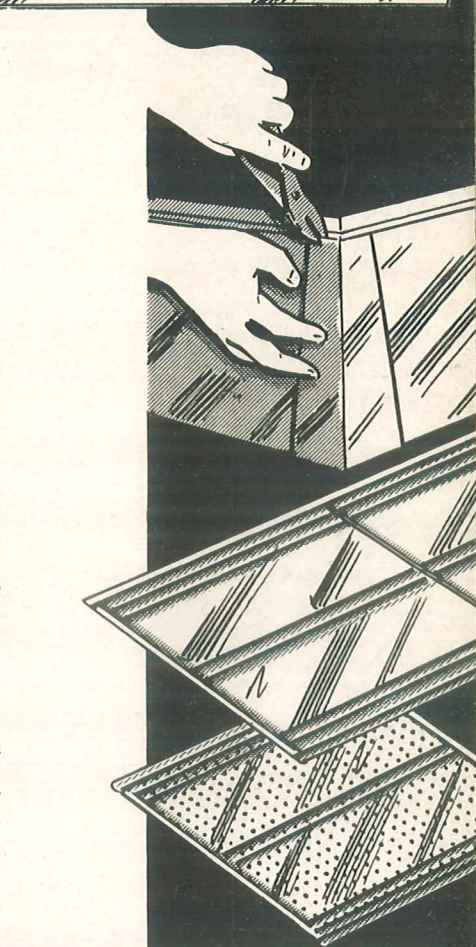

- D. End with Drop, Single Bead, 5" x 3" (.027"), ea. \$.58
 E. Conductor Pipe, corrugated round 3" x 10' (.020"), ea. 2.12
 F. End Caps, Large Strip, 5" (.027") .18
 G. Hanger, Single Bead, Triple Twist Wire, 10" Shank, ea. .11

- H. Elbow Corrugated Round No. 2 (60°) 3" (.020"), ea. \$.50
 I. Connections Slip Joint, 5" (.027") ea. .16
 J. Elbow Corrugated Round No. 3 (75°) 3" (.020"), ea. .50

ALUMINUM GARAGE DOORS

8 ft. by 7 ft. \$74.95

4 panels per door; individual panel is 21" x 8'. A roll-up type door breaking in four vertical panels for smooth, quiet and permanent efficiency. A minimum head room of only 51½" needed from top of door for track. Comes crated complete with track channels, counter-balance assembly, tumbler lock with T latch. Easily and quickly installed with screws. Made of .040 aluminum.

NAILS

While the origin of the "penny" (d) system of designating nail sizes is shrouded in obscurity, the most plausible theory is that it came about through an effort to indicate the weight of the various sizes of nails then in use.

An "eight penny" nail was doubtlessly one of such size that one thousand weighed approximately eight pounds and it was probably first known as an "eight pound" nail and designated as an "8d" nail, the letter "d" is also the symbol for the penny of the English monetary system,

it seems quite natural that the two terms came to be used interchangeably with the result that the "8d" nail gradually came to be known as an eight penny nail.

Wire nail sizes have become standardized through usage and each "penny" size indicates a definite length, regardless of the weight which varies with the gauge (or diameter) and type of head which, in turn, are variables for different types of nails. By trade custom the nominal length of all nails, except cement coated and those with countersunk heads, is measured from the under side of the head to the tip of the point. Cement coated and countersunk nails are measured over their entire length, including the head.

VALANCES — cut to size and shaped to your own particular
design. An average size window is approximately \$2.95.
Call your friendly salesman for exact cost and details.

STEEL ATTIC VENTILATORS

For attic ventilation use.
Durable and easy to install
steel ventilation.

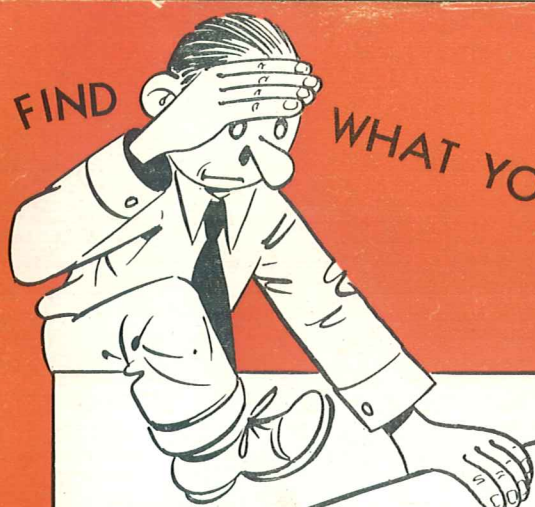

In frame construction it is
only necessary to cut an
opening in the sheathing of
correct size — then nail
the flange to the sheathing
through holes provided and
butt the siding up against
ventilator frame which pro-
jects 1" beyond the sheath-
ing. No wood trim is re-
quired.

No. 811	8 1/8" wide, 11 1/8" high, 23 sq. in.	ea. \$2.10
No. 816	8 1/8" wide, 16 1/4" high, 42 sq. in.	ea. 2.39
No. 824		ea. 2.55
No. 1214	12 5/8" wide, 13-11/16" high, 56 sq. in.	ea. 2.80
No. 1219	12 5/8" wide, 18-13/16" high, 84 sq. in.	ea. 2.89
No. 1230		ea. 3.19
No. 1415	(Quarter Round) 14 1/8" wide, 15 1/4" high, 56 sq. in.	ea. 4.80
No. 1616	(Roof)	ea. 4.30
